E. H. POLLARD, Eso. The Scheme of a Local Bunk for this Colony with Branches at the most important places in China, has been in contemplation for a very long period. The local and foreign trade in Hongkong and at the open ports in China and Japan has increased so rapidly within the last few years that additional Bucking facilities are felt to be required. The Banks now in China being only branches of Corporations whose head quarters are in England or India, and which, were formed chiefly with the view of carrying on exchange operations between those countries and China, are scarcely in a position to deal satisfactorily with the local

trade which has become so much more extensive and varied than in former years. This deficiency the Hongkong and Shanghai Banking Company will supply, and will in fact assume the same position with relation to this Colony as the Presidency Banks in India, or the Banks of Australia in their respective localities. The Establishment of a Mint in Hongkong providing an adequate supply of proper currency, will render a local Banking medium essential to carry out its operations, and the almost certain disappearance of the existing Comprideric system so far as money is concerned) will also ensure Banks becoming in course of time the exclusive nedium for the transaction of the monetary operations connected with trade.

For the anticipated success of this enterprise there are therefore ample grounds; and the great prosperity which has attended the working of other local associations in China clearly shews that the largest profits are obtained by those 12m Public Companies which possess an interested local body of Proprietors or Shareholders whose support naturally forms a chief element of remunerative success.

The Bank will commence operations simultaneously in Hongkong and Shanghai and as the importance of its business at the latter place must be very great, it is intended to establish a local Board of Directors there for more effectually meeting the work. As circumstances render it advisable the Bank will establish Branches at other Plates, Flat Dishes, Toilet Sete, Jugs, &c., av. In the distribution of Shares Hengkong and Shanghai will equally participate. Shares will also in be reserved for the other ports in China and Japan

PENINSULAR & ORIENTAL STEAM NAVIGATION COMPANY NOTICE OF REDUCTION OF PASS. AGE MONEY.

N the year 1607 the Directors made a consider able reduction in the Company's rates of Passage Money, which continued in force till 1861. In that year, owing to the extraordinary rise in the Cost and Freight of Coale, and the enhanced price of all descriptions of Naval Stores, the Directors were reluctantly compolled to return to Fattey Pastry, and Confectionery business on his the rates of Passage Money previously in force. They are now happy to state that a decrease in his long experience and corolal attention; to sethe price of Coal and other expenses of Steam Navigation enables them to reduce the Company's Passage rates to the undernoted scale, which will take effect from and after the lot June next, viz:-
